

The Birthday Toby Jug

Well when you get to 50 and you have an OBE, and 1% of all the books sold in the UK are written by you. You're Briton's best selling Fantasy Author, and a bloody nice bloke to boot, what more is there. At least that's what I told him in order to finally let us actually make something with his visage on.

We thought the old fashioned Toby Jug was the best idea. Made to the same exacting standards as always, beautifully glazed porcelain, individually numbered and certificated, this is a fan's fantasy come true. Furthermore £1 is donated to a children's charity for every one sold.

An Edition of only 1500 world wide, ever.
Hand made and glazed, numbered.
Launched on his Birthday in May this year.
£50.00

This is reckoned by those in the know to be the ultimate
DISCWORLD
Christmas Gift

For details of these fine objects, Candles, Jewellery, and other creations still being constructed in our many Studios

Paul Kidby

DISCWORLD ARTIST TO THE
GENTRY

Has pleasure in offering to his select clientele his first masterpiece in Sculptural Form.

Depicting
GRANNY WEATHERWAX

as you have never seen her before
Hand made in the Studios of
The Cunning Artificer
from a rare and special material
known to the connoisseur of
fine sculpture as Breccia. A
material specially formulated
for the reproduction of only
the very best of sculptures.
As are enjoyed by the Nobility
in their diverse private collections.

The bust itself is 29 cm tall including the magnificent turned base which sets the severe majesty of the portrait in perfect proportion.
The price excluding postage is £50.00

Our Craftsmen will only create 1000 of this particular sculpture
Each will be numbered and certificated accordingly.

The Watch House

Edition of 500.

Official Launch date, September 1998. 320 pre sold.
The most detailed building yet. With many features that will appear in future books. This piece measures 10" by 10", and is 10" tall including the signal apparatus. In addition there are 6 painted pewter additions such as hand carts, wagons, and military equipment.

During the sculpting of this work the author himself did on many occasions offer sage council as to the various arrangements of architecture and content.

This sculpture also benefited from the many and varied drawings and artistry of my learned friend, Mr Paul Kidby Esq, whose skill with pencil and brush is much admired by all who behold it.

For sale at just £140.00, for which terms are available.

The Cunning Artificers Collection of Curiosities and Objet d'art

These being objects of virtu that we hope will afford the many readers of those most wonderful
DISCWORLD

novels

both the delight of acquisition, and an opportunity to observe for themselves how the inspiration of that most pleasing of authors,

Mr Terry Pratchett Esq OBE

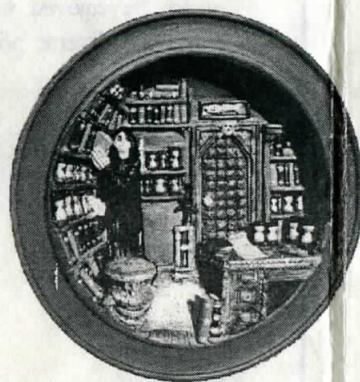

can be translated into sculptural form.

Sculptured Plates Editions of 500 each piece numbered and certificated.

All these plates are 9" in diameter, sculptured to an exceptionally high standard and hand painted by Karen and Jim, when not in drink.

The use of a circular base for a sculptural relief is somewhat novel, but much commented upon by the Author himself, and it is believed his study is decorated with the same..

In addition, Hex abounds with painted Pewter levers and machinery which gives incredible visual depth, and tries in some small way to match the immortal prose of the Master with cunning objects.

Death's Study

Launched Aug 1997

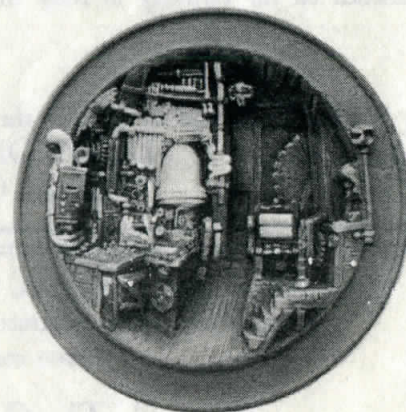

£50.00

The Hogfather

Launched Nov 1997.

£50.00

HEX

The Discworld Computer

Launched June 1998
