According to ancient legend,
the Mystic Masters of
Ancient Times could create
the most wondrous erections using
nought but a folded napkin or fifty
pound note.

In keeping with their ancient
traditions we have commissioned
that well known Mystic, Mr
Llapsung Dibbler to re create the
famous LANCRE PINE Origami as a
special one off Hogswatch Card.

Bearing in mind that, according to
ancient tradition a large part of this
Origami Extravaganza exists in
potenta within the context of the
Time Space Conntinuinam, only
part of what you produce will be seen
here. Or not as the case may be.

However the Management take no
responsibility for any disruption to
the fabric of reality within the
immediate area, or within two square
miles of the immediate area, or
within any pocket, undergarment, or
orifice, appertaining to or being part
of the being or specie that undertakes
this festive puzzle.

Nor are we ever at home, and even if
we were we have a huge wild dog, and
big sticks.

So Happy Hogswatch.
